Rob and Shelley Hanson

**Rob, 57, loves to fish, but now he needs the biggest catches of his life:
a transplanted heart AND kidney.**

Rob has a congenital heart condition that has led to two heart valve replacements and use of medications that, in turn, have created his need for a kidney transplant.

Rob and his wife, Shelley, married 32 years ago and are parents to adult children Logan (with wife Jess), Kelsey and Dylan. Rob is a longtime Lumber Mart employee.
